

## Introduction for the Pope resources

As Britain prepares for an official state visit of the Pope in September 2010 it may be useful to prepare your young people also. They may know very little about his role and what it means. They may have some memories from Confirmation class, but sadly may have more knowledge from what they have read or heard in the media.

These resources are here to help them discover more about the Pope and all that he does. There is a wide mix of resources and we don't suggest you do all of them, rather you choose the best for your group. If you have a young and lively group you will probably go for the games and the Titles of the Pope activity which ends with simple prayer. With an older group you might choose to watch the film or listen to the music, or perhaps the Bible Study. You know your group, so we suggest you look through the material and choose the best for them.
